CYBERSECURITY FOR LAW FIRMS

THE GROWING THREAT

Cybercriminals are increasingly targeting law firms. A single breach can have devastating consequences.

BUILDING A STRONG DEFENSE

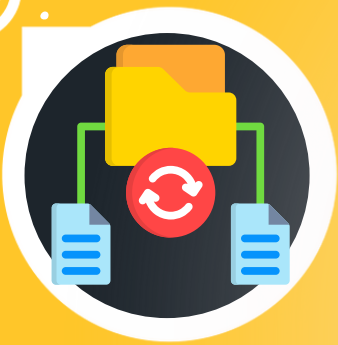

1. EMPLOYEE TRAINING

Regular cybersecurity awareness training.

2. DATA MANAGEMENT

Implement data classification and retention policies

3. REGULAR BACKUPS

Follow the 3-2-1 backup rule.

4. TECHNICAL CONTROLS

Use firewalls, IDS, encryption, and regular updates.
